Display

Super Retina XDR display

15.54 cm / 6.1" (diagonal)
all-screen OLED display

2556x1179-pixel resolution at 460 ppi

The iPhone 15 display has rounded corners that
follows a beautiful curved design, and these corners
are within a standard rectangle. When measured as a
standard rectangular shape, the screen is 15.54 cm
(6.12") diagonally (actual viewable area is less).

Super Retina XDR display

17.00 cm / 6.7" (diagonal)
all-screen OLED display

2796x1290-pixel resolution at 460 ppi

The iPhone 15 Plus display has rounded corners that
follows a beautiful curved design, and these corners
are within a standard rectangle. When measured as a
standard rectangular shape, the screen is 17.00 cm
(6.69") diagonally (actual viewable area is less).

Both models

Dynamic Island

HDR display

True Tone

Wide colour (P3)

Haptic Touch

20,00,000:1 contrast ratio (typical)

1,000 nits max brightness (typical); 1,600 nits peak brightness (HDR);
2,000 nits peak brightness (outdoor)

Fingerprint-resistant oleophobic coating

Support for display of multiple languages and characters simultaneously

Splash, Water and Dust Resistant[3]

Rated IP68 (maximum depth of 6 metres up to 30 minutes) under IEC standard 60529

Chip

A16 Bionic chip

6-core CPU with 2 performance and 4 efficiency cores

5-core GPU

16-core Neural Engine

Camera

Dual-camera system

48MP Main: 26 mm, ƒ/1.6 aperture, sensor-shift optical image stabilisation, 100% Focus Pixels, support for super-high-resolution photos (24MP and 48MP)

12MP Ultra Wide: 13 mm, ƒ/2.4 aperture and 120° field of view

12MP 2x Telephoto (enabled by quad-pixel sensor): 52 mm, ƒ/1.6 aperture, sensor-shift optical image stabilisation, 100% Focus Pixels

2x optical zoom in, 2x optical zoom out; 4x optical zoom range

Digital zoom up to 10x

Sapphire crystal lens cover

True Tone flash

Photonic Engine

Deep Fusion

Smart HDR 5

Next-generation portraits with Focus and Depth Control

Portrait Lighting with six effects

Night mode

Panorama (up to 63MP)

System Requirements

Apple Account (required for some features)

Internet access[14]

Syncing to a Mac or PC requires:

- macOS Catalina 10.15 or later using the Finder
- macOS High Sierra 10.13 through macOS Mojave 10.14.6 using iTunes 12.9 or later
- Windows 10 or later using iTunes 12.12.10 or later (free download from apple.com/in/itunes/download)

Environmental Requirements

Operating ambient temperature: 0° to 35° C (32° to 95° F)

Non-operating temperature: −20° to 45° C (−4° to 113° F)

Relative humidity: 5% to 95% non-condensing

Operating altitude: tested up to 3,000 m (10,000 feet)

Languages

Language support
English (Australia, UK, US), Chinese (Simplified, Traditional, Traditional – Hong Kong), French (Canada, France), German, Italian, Japanese, Korean, Spanish (Latin America, Spain), Arabic, Bulgarian, Catalan, Croatian, Czech, Danish, Dutch, Finnish, Greek, Hebrew, Hindi, Hungarian, Indonesian, Kazakh, Malay, Norwegian, Polish, Portuguese (Brazil, Portugal), Romanian, Russian, Slovak, Swedish, Thai, Turkish, Ukrainian, Vietnamese

Documentation

iPhone and the Environment

iPhone 15 and iPhone 15 Plus are designed with the following features to reduce their environmental impact:[16]

See the iPhone 15 and iPhone 15 Plus Product Environmental Report (PDF)

Progress toward Apple's 2030 carbon-neutral goal

- 23% recycled or renewable content[17]
- 25% emissions reduction against baseline[18]
- Over 30% of manufacturing electricity is sourced from supplier clean energy projects[19]

Made with better materials

- 75% recycled aluminium in the enclosure
- 100% recycled cobalt in the battery[20] — a first for Apple
- 100% recycled copper foil in the main logic board and — in a first for Apple —

Smarter chemistry[23]

- Arsenic-free glass
- Mercury-, BFR-, PVC- and beryllium-free

Green manufacturing

- No established final assembly sites generate waste sent to landfill as part of Apple's Zero Waste Programme
- All final assembly supplier sites are transitioning to 100% renewable energy for Apple production

Responsible packaging

- 99% or more fibre-based packaging[24]
- 100% of virgin wood fibre comes from responsibly managed forests[25]

Apple Trade In

Trade in your eligible smartphone for credit towards a new iPhone.[26] If your

the MagSafe inductive charger
- 100% recycled copper wire and 100% recycled tungsten in the Taptic Engine
- 100% recycled gold in the wire of all cameras, the plating of multiple printed circuit boards and the USB-C connector
- 100% recycled rare earth elements in all magnets, representing 100% of the rare earth elements in the device[21]
- 100% recycled tin in the solder of multiple printed circuit boards
- 35% or more recycled plastic in multiple components

Energy efficient

- Meets US Department of Energy requirements for battery charger systems[22]

device isn't eligible for credit, we'll recycle it for free.

See how it works ›

Apple and the Environment

We're committed to making our products without taking from the earth, and to become carbon neutral across our entire business, including products, by 2030.

See Apple's commitment ›

Trade in your smartphone for credit.

With Apple Trade In, you can get credit towards a new iPhone when you trade in an eligible smartphone.[26] It's good for you and the planet.

* To identify your iPhone model number, see support.apple.com/kb/HT3939. For details on 5G and LTE support, contact your carrier and see apple.com/in/iphone/cellular. Cellular technology support is based on iPhone model number and configuration for GSM networks.

1. Available space is less and varies due to many factors. A standard configuration uses approximately 12GB to 17GB of space, including iOS 18 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can download them back from the App Store. Storage capacity is

subject to change based on software version, settings and iPhone model.

2. Size and weight vary by configuration and manufacturing process.

3. iPhone 15 and iPhone 15 Plus are splash, water and dust resistant, and were tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529 (maximum depth of 6 metres up to 30 minutes). Splash, water and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage is not covered under warranty.

4. iPhone 15 and iPhone 15 Pro can detect a severe car crash and call for help. Requires a cellular connection or Wi-Fi calling.

5. Data plan is required. 5G, Gigabit LTE, VoLTE and Wi-Fi calling are available in selected markets and through selected carriers. Speeds are based on theoretical throughput and vary based on site conditions and carrier. For details on 5G and LTE support, contact your carrier and see apple.com/in/iphone/cellular.

6. Ultra Wideband availability varies by region.

7. FaceTime calling requires a FaceTime-enabled device for the caller and recipient, and a Wi-Fi connection. Availability over a cellular network depends on carrier policies; data charges may apply.

8. Standard dynamic range video content only.

9. Siri may not be available in all languages or in all regions, and features may vary by region. Internet access is required. Cellular data charges may apply.

10. All battery claims depend on the cellular network, location, signal strength, feature configuration, usage and many other factors; actual results will vary. Battery has limited recharge cycles and may eventually need to be replaced. Battery life and charge cycles vary by use and settings. Battery tests are conducted using specific iPhone units. See apple.com/in/batteries and apple.com/in/iphone/battery.html for more information.

11. Wireless chargers are sold separately.

12. Testing conducted by Apple in August 2023 using pre-production iPhone 15 and iPhone 15 Plus units and software, with accessory Apple USB-C Power Adapter (20W Model A2305). Fast-charge testing conducted with drained iPhone units. Charge time varies with settings and environmental factors; actual results will vary.

13. Use of eSIM requires a wireless service plan (which may include restrictions on switching service providers and roaming, even after contract expiration). Not all carriers support eSIM. Use of eSIM in iPhone may be disabled when purchased from some carriers. See your carrier for details. To learn more, visit apple.com/in/esim.

14. Wireless broadband is recommended; charges may apply.

15. In China mainland, you can use Apple Pay on the web in Safari only on compatible iPhone and iPad models using iOS 11.2 or later.

16. Data is accurate as of product launch.

17. Product recycled or renewable content is the mass of certified recycled material relative to the overall mass of the device, not including packaging or in-box accessories.

18. Carbon reductions are calculated against a baseline scenario: 1) No use of clean electricity for manufacturing or product use, beyond what is already available on the grid (based on regional emissions factors). 2) Apple's carbon intensity of key materials as of 2015 (our baseline year for our 2030 product carbon-neutrality goal). Carbon intensity of materials reflects use of recycled content and production technology. 3) Apple's average mix of transportation modes (air, rail, ocean, ground) by product line across 3 years (fiscal years 2017 to 2019) to best capture the baseline transportation emissions of our products.

19. We estimate the percentage of electricity-related emissions in our manufacturing that is sourced from clean electricity by attributing to our carbon model clean energy procured by our suppliers in the prior fiscal year, based on the supplier manufacturing allocations at the time of product launch. Included in this number is only clean electricity that Apple or its suppliers have procured as part of Apple's Supplier Clean Energy Programme.

20. On a mass balance allocation.

21. Excludes trace amount of rare earth elements found outside of the magnets.

22. Efficiency performance is based on the US Department of Energy Federal Energy Conservation Standards for Battery Chargers.

23. Apple's Regulated Substances Specification describes Apple's restrictions on the use of certain chemical substances in materials in Apple products, accessories, manufacturing processes and packaging used for shipping products to Apple's end customers. Restrictions are derived from international laws or directives, regulatory agencies, eco-label requirements, environmental standards and Apple policies. Every Apple product is free of PVC and phthalates except for AC power cords in India, Thailand (for two-prong AC power cords) and South Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.

24. Breakdown of the US retail packaging by weight. Adhesives, inks and coatings are excluded from our calculations of plastic content and packaging weight.

25. Responsible sourcing of wood fibre is defined in Apple's Responsible Fibre Specification. We consider wood fibres to include bamboo.

26. Mac, iPad and Apple Watch trade-in is available only in-store in India. Apple Retail Online in India does not offer trade-in for Mac, iPad and Apple Watch. Trade-in values will vary based on the condition, year and configuration of your eligible trade-in device. Not all devices are eligible for credit. You must be at least the age of majority to be eligible to trade in for credit. Trade-in value may be applied towards a qualifying new device purchase. Actual value awarded is based on receipt of a qualifying device matching the description provided when estimate was made. Sales tax may be assessed on full value of a new device purchase. In-store trade-in requires presentation of a valid photo ID (local law may require saving this information). Some stores may have additional requirements. Apple or its trade-in partners reserve the right to refuse, cancel or limit the quantity of any trade-in transaction for any reason. More details are available from Apple's trade-in partner for trade-in and recycling of eligible devices. Restrictions and limitations may apply

Some features may not be available for all countries or all regions. View complete list.
